

Conference Keynote Speaker

Dr. Brian Muellers
Sr. VP of R&D. Pall Corporation, USA

Brian Muellers is Senior Vice President, Industrial R&D at Pall Corporation, the global leader in filtration and separations. Brian is responsible for technology leadership in the \$1.3 billion Pall Industrial business which includes applications as diverse as energy, microelectronics, aerospace, and water. As part of Pall's Centre for Applied Materials Science, Brian also has responsibility for core technologies including filter devices, computational analysis, and industrial design among others. Brian joined Pall in 1987 as a Laboratory Analyst developing blood filtration products for the Pall Medical business and has held positions of increasing scope in the Corporate R&D, Medical, and Life Sciences groups. He is an inventor of nine granted US patents. Brian earned a PhD in polymer chemistry from Polytechnic University in 1998 and a BS in biology from the State University of New York at Albany in 1986.
