

Symposium I. Co-Chair & Invited Speaker

Dr. Ewout Vandamme

Business Development Manager, NV Bekaert SA (Bekaert), Belgium

Dr. Ewout Vandamme is business development manager at NV Bekaert SA (Bekaert) and involved in strategy formulation and business intelligence for Bekaert's sawing wire activities (saw wire is a key material used in the manufacturing of c-Si solar wafers). Previously, he was head of corporate venturing at Bekaert and involved in venture capital investments in high-tech, innovative companies that have a close strategic link with Bekaert's core competences of advanced materials and advanced coatings. Dr. Vandamme obtained his M.Sc. degrees from Eindhoven University of Technology (Electrical Engineering) and KULeuven (Physics of Microelectronics and Materials Science). He obtained his Ph.D. degree from KULeuven for work on semiconductor device modeling. He wrote several classic papers in peer reviewed journals like IEEE.
