

Symposium V. Invited Speaker

Mr. Leroy Luo, Managing Director, NuvoSun Inc.

Mr. Luo is a co-founder and Managing Director of NuvoSun Inc., a second generation CIGS thin film solar cell developer and manufacturer located in Silicon Valley and Shanghai. Mr. Luo previously held a similar position at Miasolé. He founded Miasolé's Shanghai Operations in 2005 focusing on CIGS product and production equipment commercialization. Mr. Luo has over twenty years of international senior management and engineering experience in high technology companies. He has been successful as both an entrepreneur and a corporate contributor in the US and in China. Prior to entering the solar industry Mr. Luo co-founded AMEC, a venture capital funded Shanghai company focused on the design and manufacturing of semiconductor vacuum equipment. Before AMEC, Mr. Luo was the Vice President of Engineering at SciVac, a company that designed and manufactured thin-film vacuum-deposition equipment in Silicon Valley. He also worked for Mattson Technology and Lam Research with increased management responsibilities in the US. Mr. Luo is fluent in both Chinese and English. He currently resides in Shanghai. His extensive relationships in the Chinese high technology market are vital to the company's success in Asia. Mr. Luo holds multiple degrees in solid-state physics and electrical engineering (BS, MS, MSEE and Ph.D. candidate) from Zhongshan University and The University of Texas.
