

Symposium V Member

Prof. Peidong Yang

Professor, University of California ,USA

Peidong Yang received a B.S. in chemistry from University of Science and Technology of China in 1993 and a Ph.D. in chemistry from Harvard University in 1997. He did postdoctoral research at University of California, Santa Barbara before joining the faculty in the department of Chemistry at the University of California, Berkeley in 1999. He is currently professor in the Department of Chemistry, Materials Science and Engineering; and a senior faculty scientist at the Lawrence Berkeley National Laboratory. He is the LBNL department head, North Site Director of the Joint Center for Artificial Photosynthesis (JCAP). He is the deputy director for the Center of Integrated Nanomechanical Systems. He is an associate editor for Journal of the American Chemical Society and also serves on editorial advisory board for number of journals including *Acct. Chem. Res.* and *Nano. Lett.* He was the founder of the Nanoscience subdivision within American Chemical Society. He was recently elected as MRS Fellow. He is the recipient of Baekeland Medal, Alan T. Waterman Award, Julius Springer Prize for Applied Physics, ACS Pure Chemistry Award, Alfred P. Sloan research fellowship, the Arnold and Mabel Beckman Young Investigator Award, National Science Foundation Young Investigator Award, and MRS Young Investigator Award. His main research interest is in the area of one dimensional semiconductor nanostructures and their applications in nanophotonics and energy conversion. 2009 ENI Award for Renewable and Non Conventional Energy.
